Site Legend:

AIRP	American Institute for Radiologic Pathology, Silver Springs, MD
LLUMC	Loma Linda University Medical Center
LLUCH	Loma Linda University Children's Hospital
MC/VA	Medical Center or VA Hospital, or time split between both
VAH	Jeffrey L. Pettis Memorial Veterans' Hospital (aka VA Loma Linda)

Key:

Abd	Abdominal imaging	MSK	Musculoskeletal
AbdPM	Abdominal imaging (inpatient/ER)	Neuro	Neuroradiology
Cardiac	Cardiac imaging	NeuroPM	Advanced neuroradiology
CE-ICU	Intensive Care Unit	Nucs	Nuclear radiology
CE-VS	Vascular Surgery	Peds	Pediatric radiology
Chest	Thoracic radiology	US	Ultrasound
ER	Emergency radiology	VA MR	MSK & body MRI
INR	Interventional neuroradiology	VIR	Vascular & interventional radiology
Mammo	Breast imaging		

Notes:

- Vacation may be taken up to one week per rotation, scheduled in advance with chief resident approval; exceptions (longer vacation) only with PD approval
- Elective rotations may be any of A, B, or C below, and may be determined by PD based on service needs.
 - Any radiology service
 - Off-service: clinical electives (i.e. vascular surgery, neurosurgery, neurology, ICU), global health elective (maximum 1 month during residency with special approval by the PD)
 - Research: limited to a total of 1 month elective of dedicated research time with special approval by the PD
- Research elective occurs over the course of 1.25 years between Year 2 and Year 3, culminating in grand rounds presentation

BLOCK SCHEDULE - Loma Linda University Independent IR Residency Program

Key:

CE-ICU	Intensive Care Unit
CE-VS	Vascular Surgery
INR	Interventional neuroradiology
VIR	Vascular & interventional radiology

Notes:

- Vacation may be taken up to one week per rotation, scheduled in advance with chief resident approval; exceptions (longer vacation) only with PD approval
- Elective rotations may be any of A, B, or C below, and may be determined by PD based on service needs.
 - Any radiology service
 - Off-service: clinical electives (i.e. vascular surgery, neurosurgery, neurology, ICU), global health elective (maximum 1 month during residency with special approval by the PD)
 - Research: limited to a total of 1 month elective of dedicated research time with special approval by the PD
- Research is conducted between clinical responsibilities and outside work hours and there is no official percentage of time assigned to research on any rotation
- Rotations on VIR at LLUMC involve treatment of adult and pediatric patients, both at the medical center and the attached Children's Hospital
- Residents that have completed an approved ESIR pathway during DR residency will begin program in Year 2
